

# Neringa Jursyte

Neringa Jursyte and her husband moved to Canada 10 years ago. She was born and raised in Lithuania. She began her studies in Business Administration in Lithuania but moved to Canada before she completed her diploma. She enrolled in College and successfully received her diploma in Toronto before relocating to Calgary. Neringa keeps very busy with her two daughters. She also enjoys baking, decorating cakes, interior design, and travelling.

A friend introduced her to CIWA and she now volunteers with the Employment Skills Program. Neringa critiques resumes and goes the extra mile to understand both the client's professional background and the job posting requirements. She has a high attention to detail and ensures consistency in each resume she assesses.

Neringa thrives on volunteering for CIWA in this capacity. She has a drive to empower women and see them become stronger. She says that in this role she is able to help 'build a personal brochure' by helping clients to promote themselves. Volunteering in this capacity has been rewarding to Neringa. She is delighted that she has been able to contribute in small ways to the growth and development of others.

Neringa is hard working, committed and determined to achieving a high-quality finished document. She possesses superior written communication and editing skills and writes well-crafted career profiles that are relevant to the job posting; she works hard to ensure she understands both the client's professional background and the job posting requirements by researching the profession thoroughly and familiarizing herself with the terminology related to the field. Several clients have been invited to interviews and received job offers due to her support.

Congratulations Neringa for being Volunteer of the Month for August!

## VOLUNTEER OF THE MONTH
